around a Town Center*

Continuing a century long tradition of offering care in a community setting, Augsburg designed Reformation Square in response to the needs and desires of persons 62 and above who would like to enjoy their retirement in comfortable surroundings, close to friends, with amenities which make life relaxed and secure.

The **TOWN CENTER** features an indoor/outdoor Cafe for casual dining, a Wellness Suite with Fitness Center. A convenience store, bank and beauty/barbershop also located in the town center keep areas for daily activities together. An enlarged community room allows both large and small groups to have meetings, engage in classes, participate in activities and crafts or simply relax and enjoy one another.

The **LARGE APARTMENTS** in Reformation Square, were built in response to requests for more space. A one Bedroom and Den with one-and-a-half baths was designed for those who want some extra space but find they do not need two-bedrooms. For those who desire extra space, a number of extra large two-bedroom apartments are also available.
